

Mariéthoz Cédric

Switzerland 24 December 1997
Data & AI Engineer

Valais, Switzerland

cedric.mariethoz.cm@gmail.com

+41 79 853 28 37

Availability from Q3 2026

Focus Areas

- Python-based Development
- Engineering & Automation
- Data & AI Systems

Languages

French — Native

English — C1

German — B1

LinkedIn

Profile

Data and AI Engineer with a strong engineering background and hands-on experience in machine learning (Idiap), data processing (BSc-HES), and automation systems (Constellium). Used to working in structured academic and project-based environments, with a focus on reliable, maintainable, and production-oriented solutions.

Experience

Internal member Junior Entreprise Valais, Sion (CH) 11/2024–07/2026

- Developed responsive web interfaces using HTML, CSS, and JavaScript for client-facing projects.

Student MSc in Artificial Intelligence Idiap, Martigny (CH) 02/2022–07/2023

- Research project aimed at studying optimisation problem solving in robotics.
- Designed and implemented learning algorithms in Python using PyTorch; trained and evaluated models on robotic motions.
- Executed experiments on HPC clusters using SLURM for job scheduling.
- Thesis work; Robot skills acquisition with Tensor Train Decomposition.

Automation Technician VET Constellium, Chippis (CH) 08/2013–07/2017

Education

BSc in Computer Science and Communication ISC 08/2024–08/2026
HES-SO Valais-Wallis, Sion (CH) Major in Data Engineering

MSc in Artificial Intelligence 02/2022–07/2023
UniDistance Suisse, Brig (CH) — Idiap, Martigny (CH)

BSc in Systems Engineering 09/2018–07/2021
HES-SO Valais-Wallis, Sion (CH) Major in Infotronics

Swiss FVB(MP) Technical Track 08/2017–06/2018
EPTM, Sion (CH)

Swiss VET(CFC) Automation Technician 08/2013–07/2017
EPTM, Sion (CH)

Certifications & Training

Fundamentals of Deep Learning 12/2025
NVIDIA, Sion (CH)

Language studies 08-10/2023
EF International, Manchester (GB)

Skills

AI & Data

Python, Machine Learning, Deep Learning, PyTorch, Data Processing, SQL

Computing

HPC, SLURM, Parallel Processing

Software Engineering

Git, Testing, Modular Design, Error Handling

Web Development

HTML/CSS, JavaScript, API Integration

Systems & Automation

C++, Industrial Automation, Sensor Systems, Control Systems
